ANIMAL INTAKE POLICY

Pet Harbor's mission is to save the lives of Siberian Huskies and cats in kill shelters when we have the foster space to do so. Because it is our goal to place only safe dogs into society, we do not knowingly take dogs that have bitten a person. Also, it is our understanding the law does not allow us to take in strays, and we don't. We also perform temperament testing before we commit to taking a dog. We do not accept dogs that fail our temperament testing. If we have available foster space, we do accept dogs that pass our testing. We do not take mixed breeds or breeds other than the Siberian Husky. Our cat intake is currently closed. We do not accept species other than cats or dogs.
