## Labrador Retriever Rescue

February 28, 2017

### Intake Policy

- We pull dogs from shelters that are Labrador Retriever and Labrador Retriever Mixes based on their basic physical characteristics.
- We Temperament Test the dogs to ensure that they show no aggression towards humans or other animals.
- We are foster based; therefore we make sure that homes are available for the dogs that we pull.
- We ensure that we have financial resources available in our coffers to accommodate any medical needs that the individual dogs may have.
