

## **Surry County SPCA Animal Intake Policy**

Since we are a foster care rescue organization, we only take in rescue animals if a fostering member is available to care for the animal on an intermediate basis, until said animal can be placed in a permanent home through adoption.

We generally receive animals that are surrendered by their owners, or that have been found as strays. All stray animals are reported as “found” to our local Animal Control Shelters, in accordance to where the animal was found.

Our policy is to take in animals from our own locality or a neighboring vicinity only.
