Smyth Animal Rescue & Resource Center's mission is to save homeless dogs and cats from euthanasia at Smyth County Animal Shelter and to elevate the community's understanding of adequate pet care. We provide animals with housing and basic wellness services until we can transport them to receiving rescues in other areas of the state and northeast or find a suitable adopter.

Smyth Animal Rescue receives in-state transfers of dogs and cats from Smyth County Animal Shelter. Intake is limited based on the space and resources available to properly care for each animal. Owner surrender pets are accepted on a case-by-case basis.
