

Animal Intake Policy

Campfire Critters Animal Sanctuary (CCAS) is a forever home for farm animals in need. CCAS will acquire animals through owner surrenders, livestock auctions, and adopting from releasing agencies such as rescues, animal shelters, humane societies, and animal control.

New intakes will be quarantined for a minimum of two weeks. Necessary vet care will be obtained during the quarantine period. All new intakes will have a behavior assessment and a training plan created based on the animal's needs. Only trained CCAS volunteers may handle or interact with new intakes until cleared by the on-sight trainer.
