

MAGPIE & DAISY'S INTAKE POLICY

Our animals come from various circumstances and places. We receive animals as transfers from overcrowded shelters and other rescues. We accept owner surrenders on a case by case basis with focus on Southampton County, VA as there is no cat intake at the shelter.

Our first priority for saving animals is always to save them from being euthanized in overcrowded shelters, usually from Virginia and North Carolina. We will always give the highest priority for animal intake to dogs, cats, and kittens that are about to be killed in shelters.

We never take dogs or cats that are strays and have not been properly reported to local animal control and held for the required legal amount of time.

ANIMAL RETURN POLICY

Animals previously adopted from Magpie & Daisy's will be accepted for intake under any circumstances. There is no time limit on our return policy and we require first right of refusal per our contract.
