ANIMAL INTAKE POLICY

1. We strive to take as many cats as possible but have a very limited number of fosters. Therefore, we post available cats on Petfinder and Adopt-A-Cat.
2. Helping Homeless Felines recommends the spaying and neutering of cats to reduce the number of unwanted or surrendered pets.
3. If we accept an owner surrender, the cat must be up-to-date on vaccinations and spayed or neutered.
4. All cats adopted out from Helping Homeless Felines will be up-to-date on vaccinations, microchipped, FIV/FELV tested and spayed or neutered.
5. We accept special need and disabled cats and provide as much needed care for them to have a healthy pain-free quality of life.
6. Helping Homeless Felines does not euthanize healthy cats even ferals.
7. We do not allow cats to be outdoors or declawed. All previously adopted cats need to be returned to Helping Homeless Felines.
